Description

Finished in the striking Crystal Black Pearl paintwork with a contrasting Black and Red cloth interior, this exceptional 2017 Honda Civic Type R GT 2.0 i-VTEC presents in truly outstanding condition throughout.

We are delighted to offer what is quite possibly the finest example currently available — an extraordinarily low-mileage car showing just 1,900 miles from new. Having formed part of a private collection and carefully preserved in dry storage, this remarkable Type R represents an increasingly rare opportunity to acquire one of the most celebrated modern Japanese performance hatchbacks ever produced.

The FK2-generation Civic Type R marked a defining chapter in Honda’s rich Type R lineage, combining race-inspired engineering with everyday usability. Revered for its precision handling, exhilarating 2.0-litre VTEC turbocharged performance and Nürburgring-honed dynamics, the FK2 quickly cemented its status as one of the greatest front-wheel-drive performance cars of its era — and a future modern classic.

Whether acquired as a standout addition to an existing collection or enjoyed as an engaging driver’s car, this example offers a unique chance to experience the very best of Honda’s legendary engineering pedigree.

The vehicle further benefits from Full Car PPF and is accompanied by a comprehensive HONDA MAIN DEALER SERVICE HISTORY, with services carried out at 852 miles,

1,657 miles, 1,892 miles and 1,911 miles.

For complete peace of mind, all vehicles are supplied with a comprehensive Platinum 6-Month RAC Warranty together with 12 Months RAC Roadside Assistance.

Why not request a personalised walkaround video of this exceptional car?
